**Go one better!  
'75 Apache**

# It's easy to see why Apache is the better one!

Foam mattresses make life softer in every '75 Apache.

Foam seat backs and cushions are richly upholstered in heavy-weight, soil-resistant fabrics and vinyls.

Solid, sliding "picture" windows with fiberglass screens are standard on Solid State models. Draperies come with all models, except Eagle 400 and 500.

12-V, 2-speed power ventilator keeps the air fresh and clean. Standard on all Solid State models.

There's plenty of storage space inside every cabinet, plus more storage under these seats.

Solid State models have walls of rugged, space-age thermoplastic. All models, except Eagle 400 and 500, have double-thick, insulated roofs with an inner core of insulation.

Beds slide out on rollers for fast, effortless set-up.

Aluminum body panels and trim won't rust, help keep your Apache looking good for years.

Every Apache has leveling legs at all four corners for a solid foundation on any terrain.

Continental-style spare tire compartment locks securely. Not available on Eagle 400 or 500.

Just turn the crank, and a smooth, gear-operated lift mechanism raises the side walls and roof on Solid State and Eagle 600 and 800 models.

Water storage tank is standard, except on Eagle 400.

Low-profile tires for smooth towing, steady tracking. Open wheel wells provide easy access to tires. Electric brakes are standard on Roamer, Ramada and Royal.

Extra-wide, 28" door and slide-out door step are standard on all Solid State models, Eagle 600 and 800.

Rigid 3/4" plywood sub-floor covered with durable cushion vinyl. Standard on all models.

# Apache Solid State

## Go one better...with solid walls around you, and a solid roof over you!

For 1975, Apache goes one better than every other folding camping trailer.

Because only Apache gives you the comfort and protection of Solid State construction. Which means solid walls and insulated roof of tough, space-age thermoplastic. Plus solid, screened windows that slide to open and close.

It all adds up to a solid difference in camping pleasure. Greater protection from wind and weather . . . better insulation . . . more safety and security.

And, every Solid State model lets you enjoy that solid comfort to the limit, with a long list of easy-living conveniences. Things like sliding draperies, 2-speed power ventilator, and a 110-12V converter that plugs into campground current or a 12-volt battery. And much, much more.

Check over the features of all the '75 Apaches on the back page of this folder. Then compare them with any other camping trailer.

We think you'll agree . . .  
Apache is the better one!

## Ramada

For those who think that big is better.

If your idea of a lot of comfort is a lot of room, consider the size of Ramada.

Nearly 21 feet from end to end. With more than 127 square feet of living area in between.

But all that room would mean nothing with nothing inside of it. So we furnished Ramada with just about every comfort you could ask for.

Two extra-wide double beds; a luxurious lounging couch that makes up into another double bed; a spacious dinette that converts to a fourth bed for two. Plus, a household-height galley with gas range, sink and ice box, all housed in twin cabinets with sliding drawers and plenty of storage space inside.

You also get conveniences like ceiling lights, 2-speed power ventilator and city-water hookup.

Electric brakes and smooth-riding, low-profile tires are standard.

Ramada Specifications: Weight, 1740 lbs.\* • Length, 16'6 1/2" • Width, 6'7 7/8" • Road Height, 53" • Tires, 20.5x8.0-10", 6-ply-rated. Living Area: Height, 6'2" • Width, 6'5 1/2" • Length, 20'7" • Bed Dimensions, 72" x 54".

\*Does not include options, accessories, gas or water.

## Roamer

### Presenting a refreshing new idea.

From the outside, Roamer is a ringer for our big, luxury Ramada. Same size. Same Solid State construction.

Inside, though, it sports a distinctively different floor plan for 1975. Starting with a hideaway shower stall, complete with sliding curtains, hot and cold running water and provisions for adding a portable toilet.

There's also sleeping space for six—two double beds and a dinette that converts to another bed for two.

The household-height galley includes a sink, gas range, ice box and water supply tank. You get loads of storage space inside the galley cabinet and more storage in the spacious dinette cabinet.

A 110-12V electric system is standard, along with ceiling lights, electric water pump, gas water heater and power ventilator.

For easy towing and roadability, Roamer comes with wide-tread tires and electric brakes.

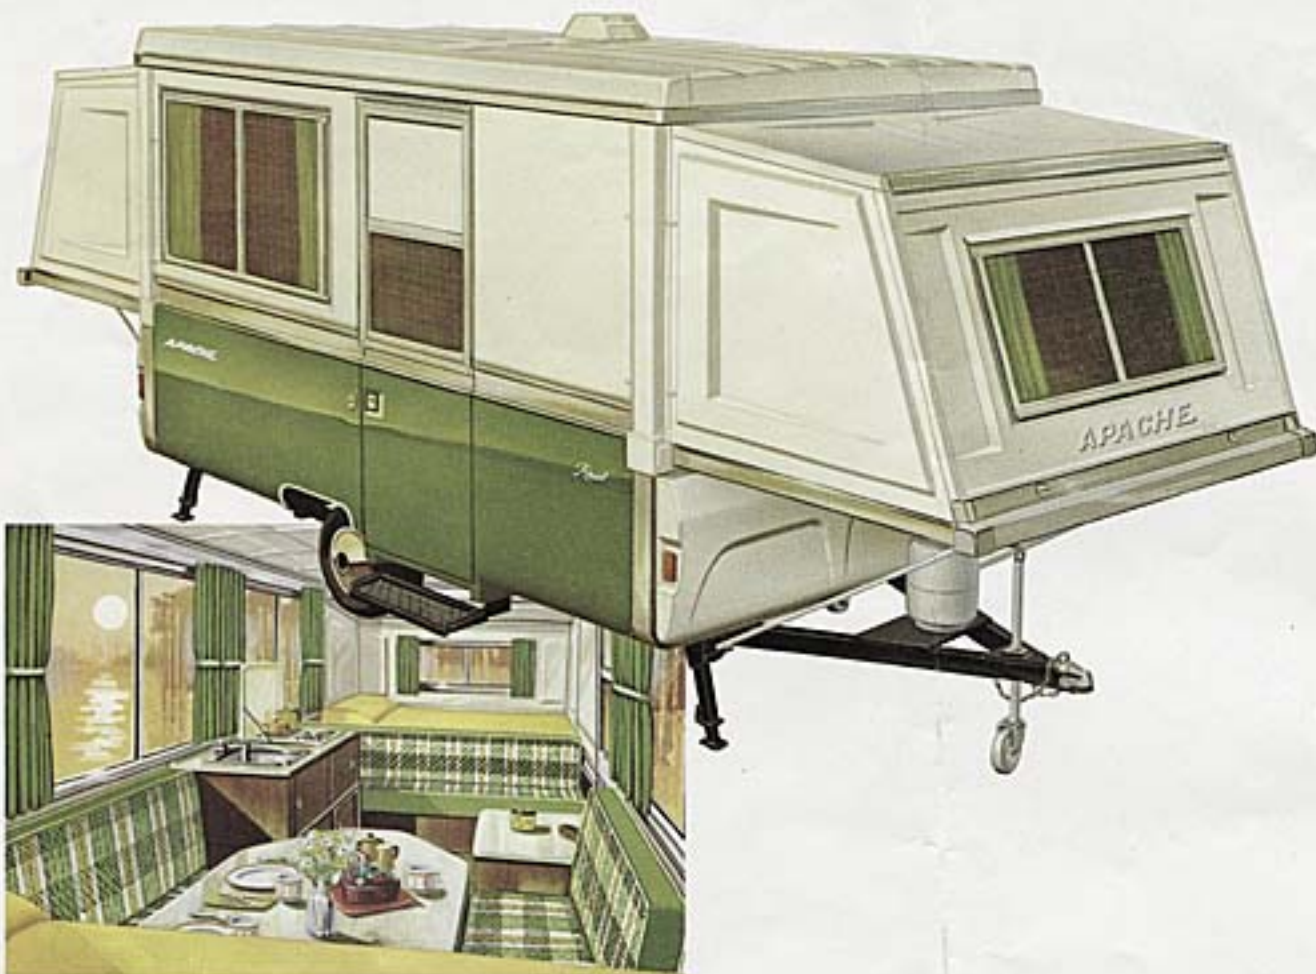

Roamer Specifications: Weight, 1850 lbs.\* • Length, 16'6 1/2" • Width, 6'7 7/8" • Road Height, 53" • Tires, 20.5x8.0-10", 6-ply-rated. Living Area: Height, 6'2" • Width, 6'5 1/2" • Length, 20'7" • Bed Dimensions, 72" x 54."

\*Does not include options, accessories, gas or water.

## Royal

The comforts are just what the name implies. Stretch out on that sumptuous, 6-foot lounging couch and you'll know why we named this Apache Royal. But the comforts don't end there.

It comes with two extra-wide double beds with foam mattresses. And, if you need more sleeping space, the lounge and dinette each convert to double beds.

The galley is equipped with 3-burner gas range, sink and ice box. A spacious dinette storage cabinet is standard. Likewise, a 110-12V converter, power ventilator, ceiling light and electric brakes.

Royal Specifications: Weight, 1590 lbs.\* • Length, 14'10<sup>1</sup>/<sub>4</sub>" • Width, 6'7<sup>7</sup>/<sub>8</sub>" • Road Height, 53" • Tires, 20.5x8.0-10", 6-ply-rated. Living Area: Height, 6'2" • Width, 6'5<sup>1</sup>/<sub>2</sub>" • Length, 19' • Bed Dimensions, 72" x 54".

## Mesa

For a lot of families, it measures up perfectly. The measure: just over 16 feet of living area. Not too big. Not too small. Yet Mesa will sleep six persons in solid comfort, thanks to two double beds, and a 4-place dinette you can turn into an extra bed for two.

The 35"-high galley includes a gas range, sink, ice box and loads of storage space. For good measure, two extra storage cabinets are standard.

Mesa also comes with conveniences like a 110-12V converter and power ventilator—just like the biggest Apaches.

Mesa Specifications: Weight, 1390 lbs.\* • Length, 13<sup>1</sup>/<sub>2</sub>" • Width, 6'7<sup>7</sup>/<sub>8</sub>" • Road Height, 53" • Tires, 20.5x8.0-10", 4-ply-rated. Living Area: Height, 6'2" • Width, 6'5<sup>1</sup>/<sub>2</sub>" • Length, 16'1" • Bed Dimensions, 72" x 48".

\*Does not include options, accessories, gas or water.

# Apache Tent Trailers

**4 comfortable, economical ways to go one better.**

## Eagle 800 and 600

**Solid State luxury with tent trailer economy.** Both of these roomy, hardtop tent campers have super-comfort interiors fashioned after the Solid State Apaches—but are priced substantially lower.

Eagle 800 sleeps eight, has a dinette, lounging couch, storage cabinet, 110-12V converter, and a household-height galley cabinet with gas range, sink and ice box.

Eagle 600 has sleeping space for six, 4-place dinette, storage cabinet, and household-height galley with sink, gas range and ice box.

Both models have colorful sliding draperies, interior lighting and city-water hookup—all standard.

**Eagle 800 Specifications:** Weight, 1325 lbs. • Length, 14'10 1/4" • Width, 6'7 7/8" • Road Height, 54" • Tires, 20.5x8.0-10", 4-ply-rated. Living Area: Height, 6'3" • Width, 6'5 1/2" • Length, 19' • Bed Dimensions, 72" x 54".

**Eagle 600 Specifications:** Weight, 1165 lbs. • Length, 13'1 1/2" • Width, 6'7 7/8" • Road Height, 54" • Tires, 20.5x8.0-10", 4-ply-rated. Living Area: Height, 6'3" • Width, 6'5 1/2" • Length, 16'1" • Bed Dimensions, 72" x 48".

## Eagle 500 and 400

**Drive small, live big.** These new Apaches are light enough to tow with a compact car, yet big enough to accommodate six persons.

Eagle 500, with hardtop roof, comes with two big double beds, plus a dinette that turns into another bed for two. The convenient indoor-outdoor kitchen includes 2-burner range, sink, water supply and 43-qt. ice chest.

Eagle 400 provides sleeping space for four adults on comfortable foam mattresses. The spacious dinette converts to a bed for two children. There's plenty of storage space inside the dinette seat boxes and road cover compartments. The all-aluminum road cover locks to keep your belongings secure when you travel.

**Eagle 500 Specifications:** Weight, 861 lbs. • Length, 11'9" • Width, 5'8" • Road Height, 47" • Tires, 16.5x6.50-8", 4-ply-rated. Living Area: Height, 6'2" • Width, 13'10" • Depth, 8' • Bed Dimensions, 76" x 48".

**Eagle 400 Specifications:** Weight, 710 lbs. • Length, 10'9" • Width, 5'2" • Road Height, 47 1/2" • Tires, 16.5x6.50-8", 4-ply-rated. Living Area: Height, 7' • Width, 14'1" • Depth, 7' • Bed Dimensions, 79" x 52".

\*Does not include options, accessories, gas or water.
