

# Solid Apache Quality for '76

# Solid State Apaches

Only Apache gives you the solid quality of Solid State walls, roof and windows.

Solid State Apache vs. any other folding camping trailer. You can see the quality difference . . . and feel it: Apache's exclusive Solid State construction. Which means double-paneled walls and insulated roof of rugged ABS, the space-age material that gives Apache extra durability and liveability.

Remarkably strong (it's used to make everything from boats to football helmets). Amazingly light. Lastingly beautiful. The gleaming finish stands up solidly against the effects of time and weather.

Inside, Solid State means greater comfort, quiet and privacy. And extra safety and security for your family.

Plus, all the features that Solid State construction makes possible. Like huge sliding windows (they're bigger than ever for '76). Plenty of head-room over the beds. And fast, easy set-up at the campsite. Just turn the crank and the walls and roof rise with windows, draperies and door already attached.

Fold it down, and you've got a compact trailer just 53" high. The low profile puts up less wind resistance on the highway. And that can help a lot with your gas mileage.

Check the other Solid Quality features on the back page of this folder. Then see your Apache dealer. He'll show you even more reasons why Apache gives you the most for your money.

### Ramada

Nearly 21 feet from end to end. That's the measure of the roomy '76 Ramada. A camper for people who like to live spaciously, and graciously.

With first-class accommodations.

Sleeping space for eight. Two tables. Three couches. A

fully equipped galley. Plenty of storage area. Plus conveniences like a 115/12-V electric system, power ventilator, two interior lights, and handy slide-out storage drawers.

You get two double beds with foam mattresses. And the dinette and lounge couch each convert to double beds at night. The extra-wide galley

cabinet has rich-looking, real wood door fronts, and butcher-block design counter-top. Built-in gas range, sink and ice box are standard. So are electric brakes and a large capacity water storage tank.

Big, beautiful, comfortable. Plus Solid State construction. That's how you measure Ramada against any other camper its size.

Ramada Specifications: Weight (approx.), 1740 lbs. • Length, 16'6 1/2" • Width, 6'7 1/2" • Road Height, 53" • Tires, 20.5 x 8.0-10", 6-ply-rated. Living Area: Height, 6'2" • Width, 6'5 1/2" • Length, 20'7" • Bed Dimensions, 72" x 54".

### Roamer

Let's say you like the size of Ramada, but you don't need all that bed space. Roamer should be the perfect Apache for you. Especially if you prefer the extra luxury of your own private shower stall, complete with curtains and hot and cold running water.

Yet Roamer still provides comfortable sleeping room for six—two double beds and a dinette that converts to another bed for two. Plus, a trailerful of conveniences.

A large galley with gas range, sink and ice box. 115/12-V electric system. Power ventilator. Gas water heater for shower and galley. Electric

cabinet. Cushion vinyl flooring. Electric trailer brakes.

We could go on from here with standard equipment. Better to see Roamer at your dealer's. And try out all the comforts for yourself.

Roamer Specifications: Weight (approx.), 1650 lbs. • Length, 16'6 1/2" • Width, 6'7 1/2" • Road Height, 53" • Tires, 20.5 x 8.0-10", 6-ply-rated. Living Area: Height, 6'2" • Width, 6'5 1/2" • Length, 20'7" • Bed Dimensions, 72" x 54".

\*Does not include options, accessories, gas or water.

### Royal

A camping family needs more than a lot of sleeping room. It demands plenty of elbow room, too. With a '76 Royal, your brood gets a generous measure of both. Thanks to a wide-open interior design with more than 31 square feet of unobstructed floor space.

Plus, sleeping space for up to seven, starting with two double beds at each end. If you need more room, that luxurious 6-foot lounge couch serves as an extra bed. And, the dinette quickly converts to another double berth.

Gas range, sink and ice box are housed in a galley cabinet with a large storage

area inside. You also get a dinette storage cabinet, 115/12-V electric system, interior lighting, power ventilator and electric trailer brakes, to name just a few.

In fact, Royal comes with so many easy-living features, you'll wonder how we got them all in, with so much room left over.

Royal Specifications: Weight (approx.), 1990 lbs. • Length, 14'10 1/4" • Width, 6'7 1/4" • Road Height, 53" • Tires, 20.5 x 8.0-10", 6-ply-rated Living Area: Height, 6'2" • Width, 6'3 1/4" • Length, 19' • Bed Dimensions, 72" x 54".

### Mesa

You've got your heart set on a new Apache. But your wife has her eye on the budget. We've got something to keep the both of you happy: the '76 Solid State Mesa. A very comfortable camping trailer at a very affordable price.

Consider. You get more

with sleeping accommodations for six. Including two double beds and a dinette that makes up into another double bed at night. The spacious galley cabinet is complete with sink, gas range, ice box and plenty of storage space.

There's more yet. A 115/12-V electric system. Power ventilator. Ceiling light. Foam

cushions and mattresses. Real wood cabinet door fronts. Sliding storage drawers.

Mesa. A lot more camping trailer than you expected. For a lot less than you expected to pay.

Mesa Specifications: Weight (approx.), 1390 lbs. • Length, 13' 1/2" • Width, 6'7 1/4" • Road Height, 53" • Tires, 20.5 x 8.0-10", 4-ply-rated Living Area: Height, 6'2" • Width, 6'3 1/4" • Length, 16'1" • Bed Dimensions 72" x 48".

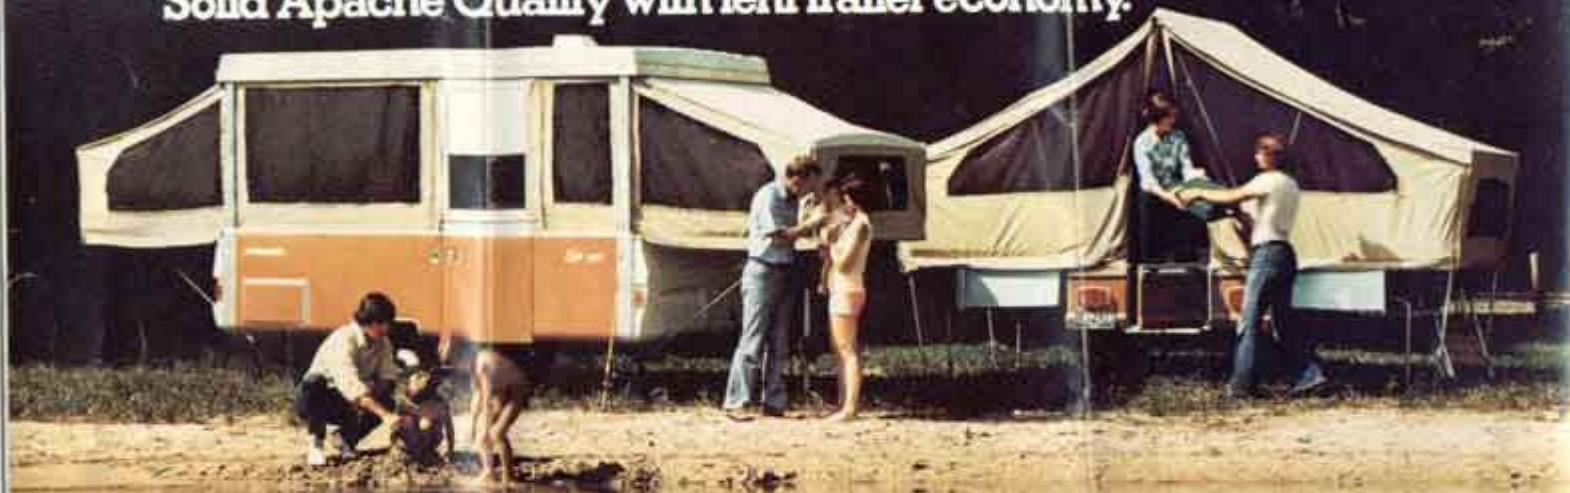

\*Does not include options, accessories.

# Apache Tent Trailers

Solid Apache Quality with tent trailer economy.

## Eagle 800

Look at the outside and you see a handsome hardtop tent camper. Look inside and you see why Eagle 800 tops the tent camper field—a luxury interior fashioned after the Solid State Apaches.

And you get comfort and convenience to match. Including sleeping space for seven, and a spacious galley with range, sink and ice box. Plus a dinette, 6-foot lounge couch and storage cabinet. Window draperies, screens, roof vent and 115/12-V electric system are standard. Along with much, much more.

When you add it all up, Solid Apache Quality makes

**Eagle 800 Specifications:** Weight (approx.), 1325 lbs. • Length, 14'10 1/4" • Width, 6'7 1/2" • Road Height, 54" • Tires, 20.5 x 8.0-10", 4 ply-rated. Living Area: Height, 6'3" • Width, 6'9 1/2" • Length, 19' • Bed Dimensions, 72" x 54".

## Eagle 400

**Problem:** How to travel with a small car and take a big camper with you.

**Solution:** The new Eagle 400.

Fold it down and you've got a compact trailer light enough to tow with a compact car. Open it up and you get a roomy, 14-foot living area with accommodations for five.

It comes with two 52" wide double beds, plus a dinette that turns into another sleeping space.

You'll find loads of storage space in the dinette seat boxes and road cover compartments. Heavy-duty Army Duck tenting, vinyl windows with fiberglass screens, and washable up-

**Eagle 400 Specifications:** Weight (approx.), 710 lbs. • Length, 10'9" • Width, 5'2" • Road Height, 47 1/2" • Tires, 16.5 x 6.50-8", 4-ply-rated. Living Area: Height, 7' • Width, 14'1" • Depth, 7' • Bed Dimensions, 78" x 52".

\*Does not include options, accessories.

## Apaches are built to make life easy.

Spacious galley cabinets are 35" high, so you don't have to stoop when you cook. There's plenty of counter space on top, loads of storage room inside.

Doorway is a full 28" wide, so you can walk through instead of squeezing through.

City-water hookup, drains and 115-V power cord are conveniently located under a single access panel with locking security feature.

12-V, 2-speed power ventilator in ceiling keeps the air fresh and clean.

Locking Continental-style spare tire compartment keeps optional spare tire safe, clean and easy to reach.

Handy storage compartment lets you load camping gear from outside the trailer.

### More standard features
