The Apache Eagle:
The tough little softie
with weekend wings!

Thank goodness it's Friday!

Finally, the weekend's here. It's time to leave all the worries of work behind and get out for a little fun and relaxation with your family. And an Apache Eagle makes it so easy. Affordably priced and light as a breeze to tow (the smallest model, the Eagle 130, weighs only 510 pounds!), the Eagles are the perfect answer to skyrocketing prices and today's smaller cars. And with their low-road profile, the Eagles save even more money at the gas pump. So go ahead and get going. An Apache Eagle is ready to fly away with you. T.G.I.F.!

The Eagles' easy flight!

Once you're on your way you can almost forget you're towing an Eagle. Whether you're on the highway or off the beaten path it handles the road with confidence and ease. And once you get to where you're going your Eagle sets up in just minutes. Why waste time working when you should be playing? Grab your tackle! There's no missed fishing with an Apache Eagle.

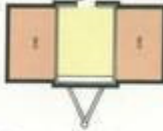

Eagle comfort makes Thursdays a thing of the past!

For 1979 there are six Apache Eagle models to choose from, ranging in open lengths from 13 to 19 feet. Accommodations start with our lightweight all-tent Eagle 130 for the back-to-basics camper and progress upward to the pampering Eagle 192D with its solid insulated roof, full kitchen with three-burner range and sink, icebox, front and rear dinettes and soft, comfortable cushions. Plus all Eagles except the Model 130 come standard with zippered vinyl windows to keep out inclement weather. And when it comes to outstanding accessory features, there's a long list to choose from shown under specifications and options.

Apache Eagle Value: A feather in your cap.

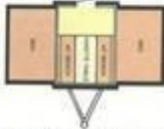

Just one look and we're sure you'll agree that the Apache Eagles are an outstanding value. Lightweight, affordable and easy on gas, they're designed to provide you with years of

dependable service, weekend after weekend, vacation after vacation. So where are you going this weekend? Your Apache Eagle's waiting to fly away.

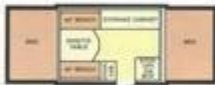

Eagle 130: For the back-to-basics camper with all tenting made of durable army duck. Easy towing thanks to a low road profile of only 41 inches and a curb weight of only 510 pounds. Plenty of room for personal gear. Two double beds, accent stripe and decal, and a one-piece undercoated floor are also standard. Sleeps four.
